INTERPRETING YOUR PERSONAL STRENGTHS PROFILE

INTERPRETING YOUR PERSONAL STRENGTHS PROFILE

The Personal Strengths Profile provides a description of how you communicate with others, make decisions, react under pressure, respond to different environments and how you are responding to current life events. The profile can help you understand better where you most naturally excel and provide insight, direction and confidence in work, educational, career and personal situations.

The interpretation report covers three main areas.

- 1. Your natural personality style -- how you feel you really are, or how you would probably be if life went exactly as planned**
- 2. Your first impression style -- how you would typically come across to others in a first time encounter.**
- 3. Your adaptation to changes -- within your current environment and your energy reserve for responding to current demands**

This report interprets your behavioral preferences according to the personality traits below. To the left are the four primary or CORE traits and to the right their counter traits.
